The Vision

The Kizuna Initiative is a proposed self-governing, student-led committee designed to unite and empower the IBDP student community through structured collaboration, academic enrichment, and meaningful service.

What We Aim to Achieve:

- Coordinate CAS Experiences
- Launch competition-oriented Clubs
- Organize Community Events

The Problem

- Fragmented CAS Efforts
- Limited Academic Enrichment Beyond Curriculum
- Disconnected Community

Kizuna's Meaning

Kizuna (絆) is a Japanese word meaning "bonds between people".

Our initiative is about creating bonds across the IBDP community. Connecting students working on similar CAS projects, linking passionate learners through subject clubs, and building lasting relationships through shared events.

Kizuna Initiative.

CAS

Offering better coordination for CAS experiences in the form of an online platform to access and register for potential activities

Clubs

Setting up competition and subject-oriented clubs during study periods in order to give classmates the ability to go deeper into their disciplines

Events

Cooperating with our newly-elected student council with the goal of organizing outside events like the prom, fundraisers etc
